

NovaNET®

Being All I Can Be

For me NovaNet may be defined as "A second chance to life." I highly appreciate the course of the program. It has truly been an inspiration to seek a higher education of learning. This program has changed my life forever. Now I know I can accomplish anything! I Am The Future.

Before coming across NovaNet, I had lost all interest in my curriculum. I had no motivation or determination and that made my grades drop very low. When I arrived at Access Academy the teachers were able to help me get the motivation and confidence I needed to succeed; with that I improved my grades.

NovaNet has given me the opportunity to make up classes. When I am on the computer, it moves to the pace of my learning. I have completed several classes over the past 5 months, and within that time I have learned many things. My favorite class would be Behavioral Science. Behavioral Science was very exciting and it kept me laughing. I never thought in a million years learning would be so much fun!

Statistics show that two out of five students will drop out of high school before receiving a diploma. Thanks to NovaNet I will not be another statistic. I am proud to say I will receive my diploma.

Through the use of NovaNet I have proven that I can attain my diploma. I plan to attend Wayne State University in Detroit, Michigan. I will give back to the children in my community by accomplishing my goal in becoming a pediatrician.

I have become an inspiration and a good role model towards my siblings and all my friends around me. People have watched me overcome many obstacles, some harder than others. I refuse to fail anymore. With the help of NovaNet failure is not an option. The word can't is no longer in my vocabulary, because the sky is the limit to what I can achieve.

The business type environment I am working in has helped me improve my skills on the computers. The school is small and quiet, therefore I can concentrate more on my work. I know that improving my computer skills will come in handy in the future.

If I was to come across a person who has given up all hope of succeeding in school, I would proudly recommend the NovaNet program. NovaNet is not only a second chance, but it gives young adults hope and inspiration to further their education. It also bring back dreams that many high school students have given up on. It gives young adults hope again by encouraging them to acquire their work in a fun way.

My parents say that everything happens for a reason. They taught me to never give up on my dreams. They never gave up on me. So with that I will make them proud.

I know in my heart I did not find NovaNet, NovaNet Found me. I know I am going to accomplish more in my life than I can imagine. In many ways this program have changed my life and made me a better person.

Thank you NovaNet!
